

Namibian Photo Books are proud to offer you the opportunity to purchase a custom made, personalised, hard cover coffee table book of your Namibian excursion. Capture your special memories and those irreplaceable moments of the tour to share with friends and family and to treasure for a lifetime.

A coffee table book is not only a great way to permanently preserve your photos, it is also a great reminder of the facts relating to your travelled route's history, fauna, flora, geology and more. A book is also less likely to end up somewhere in a drawer. With the high photo printing costs these days and the cost of albums, it is a cheaper and more stylish way to present your photos.

The book is carefully hand-bound, and made with the utmost care and high quality materials. Our designer produces a beautiful magazine style layout that will display your photos in context
